Elango, National Secretary, ELTAI in 2021, with 50 members from various parts of India teaching English abroad. The Chapter's primary aim is to bring NRI English teachers together on one platform and establish a working relationship with English Teachers in India. In addition, it collaborates with educational institutions in organizing seminars and teacher training programs for English teachers to enhance their teaching efficiency.

### The Conference

Language and Literature are two interrelated concepts. English education in India has largely been dependent on the teaching of literature. It is only in recent years that there has been a shift in emphasis from teaching literature to teaching language. The relation between Literature and English Language Teaching has been rather a difficult union throughout all these years. Literature is used in English Language Teaching to broaden learners' horizons by giving them knowledge of the classics of literature, to enhance general cultural awareness, stimulate creative and literary imagination and nurture appreciation of literature.

An effectively expressed attitude, sentiment, description and detail within poetry and prose has resulted in New Waves in Language and Literature. This conference aims to bring educators and researchers around the world to critically examine the scope of teaching literature and language as a nexus of interrelationships between individuals, society and culture and to discuss language through practices and innovations.
